SOGETI Luxembourg

Jun 2001 — Aug 2017

IT services · European and national institutions

16 years 2 months

Bertrange, Luxembourg

I worked for European and national institutions as Full-Stack software engineer.

Projects are mainly focused on web and mobile technologies.

Java+Spring, Node.js, Backbone, Android..., I follow modern standards and new performant libraries and frameworks.

Integrated into several teams from multiple clients, I like to work with people of different multicultural backgrounds.

THALES e-Transactions delivers printers inside kiosks for ticket delivery in airports and train stations. This project was aimed at providing a few prototypes of these machines and moving to the production line with all necessary certificates.

- Electronic and mechanical development
- Production management
- Suppliers management
- Computer system (VB, serial communication) to control

different printers for various tests in order to obtain certificates.

ReaderPlus Chrome Extension

2011-10-01

Chrome extension for Google Reader.
Enhances navigation and presentation by adding a theme, social sharing features, quick article preview, icons, filtering, and more...
Reached 80,000 users before Google Reader shutdown.
Project transferred to a Chinese team.

REFERENCES

I had the chance to work with Ludovic at the European Parliament for about 2 years. The way he can deliver quality software on a very short time using cutting-edge technologies is very impressive. His experience and ability to foresee problems at the very first phases of the project helped us a lot while taking decisions. I would recommend Ludovic to anyone looking for a highly skilled, effective and professional software engineer.

— Vincent Mellano

Ludovic is a very talented person. He can tackle hard tasks in a short schedule while maintaining the quality of the result. He was an invaluable partner during the time we spent working in the same service of the European parliament, and I can't wait to work with him again in the future years if it is made possible. In the meantime, I can only recommend him to anybody looking for a capable professional, who doesn't lack neither the ability to learn nor an advanced existing technical knowledge.

— Pierre-antoine Gregoire
